About Journal

International Journal of Engineering Research in Computer Science Engineering, Welcomes researches and academicians to submit their original research work which meets the journal criteria of significance and scientific excellence. IJERCSE is scholarly online open access and peer received journals emphasising on research studies and application in field of computer science engineering. Researchers are requested to submit their original articles online for a peer review and analysis before its publication. The editorial board encourages academicians, research scholars and partitions to publish their articles related to computer science engineering and relevant fields.

Call for Paper

**Computer Networks.
Data Communications.
Data Encryption.
Data Mining.
Database Systems.
Programming Languages.
CAD-CAM.
Software Engineering.
Computer Animation.
Artificial intelligence.
GUI, Distributed and Parallel Processing.**

**Operating Systems.
Internet and Web Applications.
Mobile Computing.
Security and Cryptography.
Pattern Recognition.
Neural Networks.
Parallel and Distributed Computing, Etc.
Architectural interaction.
Big data infrastructure
Cloud computing
Data center networking**

Special Issue

Special issues may be an effective way to draw attention to specific topics. This journal aims to publish one or two special issues every year. Experienced researchers and or practitioners are welcome to propose, organize, and guest edit special issues around topics of their interest and expertise.

In your proposal file, please include the following:

- > Proposed title of the Special Issue
- > Indicate what type of Issue (Thematic or Research)
- > Expected date of publication
- > Editor(s) provide brief notes for each of the guest editors, including position/affiliation, any previous editing projects/experience and key publications
- > Description a 300-500 word summary about your Special Issue, including what intervention is being made and why it's relevant to darkmatter. How you plan to generate the content, e.g. through a Call for Papers and/or existing contributors. -> Contents- if possible, provide a provisional listing of your special issue, including author names, article titles, any abstracts. (Note: this is not required at proposal stage if not available)
- > Contents- if possible, provide a provisional listing of your special issue, including author names, article titles, any abstracts. (Note: this is not required at proposal stage if not available).

You are welcome to contact us to discuss your initial ideas. Or submit a proposal by emailing info@iferpjournal.org.

Editorial Board

Editor and chief Dr. Nalini Chidambaram, Professor department of CSE, Bharath University, Chennai

Sub Editor Dr. Vadivu.G, Head of the department of Information Technology, SRM University

Sub Editor Dr. P.A. Vijaya, Professor BNMIT, Bangalore

Sub Editor Dr.S. Puspa, Prof and Head.Dept of CSE, St.Peter's University, Chennai

Sub Editor J.Jayapradha, Asst. Prof,Dept of CSE, Krisnasamy College of Engineering

Sub Editor M.Bhargavi, Asst Prof,Shree Vidhyaniketan University, Tirupati,AndhraPradesh

Resources For Authors

Resources For Booksellers
Submitting a Previously Published Conference Paper to Technoarete

1. Resources For Authors

Technoarete publishes all its journals in full open access format. The scientific community and the general public can unlimitedly and immediately access all content published in our journals for free as soon as it is published on the Internet. Therefore, Technoarete needs to defray its editorial and production costs by collecting article processing charges (APC) from authors' institutes or research funding bodies. Technoarete is committed to keep its open access publication charges at a minimum level.

We believe that immediate, worldwide, barrier-free, open access to the full text of research articles is in the best interests of the scientific community.

2. Resources for Librarians

Librarians play an important role in disseminating the latest publication information, we are committed to providing you the tools to better serve your users. If you are experiencing any difficulty, please email us at info@technoarete.in

3. Resources for Booksellers

We offer a range of services for booksellers including 'on demand' online ordering, open returns policies, fully searchable and self-tailored downloadable online catalogues, promotions and distribution.

4. Submitting a Previously Published Conference Paper to Technoarete

Conference papers are very welcome. However it is imperative that these papers are significantly revised and updated. Actually, such papers have a better chance of acceptance if their merits were already prescreened at high quality conferences.

There is a risk that the same material is published twice, so special care should be taken. We would advise authors to change the contents of the paper to that extend that slight modification of the manuscript title would be justifiable.

- The conference paper must be cited and it should be explained how the conference paper has been enhanced (lack of this citation is considered as a serious violation of ethics and as a consequence the manuscript must be rejected).
- Instead of repeating theoretical derivations or experimental results, please try to use references to these results presented already on previously published conference paper. Only the most important results should be repeated. Authors should focus on the new contributions, ideas, or clarifications that resulted after the conference paper was presented.
- The previously published conference paper should be preferably 4-6 pages long with an emphasis on the description of the state-of-the-art. Under well-justified circumstances, such as extensive new results, the revised and extended versions up to 8 pages might be acceptable.
- Please consider a slight modification of the title of the journal publication in order to avoid confusion with the previously published conference paper and please take special care about abstract so your paper will be noticed, downloaded, and read.

Registration

International Journal of Engineering Research in Computer Science and Engineering is an Open Access journal. Publishing an article in the journal requires the payment of an Article Processing Charge or Registration Fee.

The Registration Fee is currently:

Category	Registration	FeeDetails
Indian Authors	INR 2000	Free of Cost (One Hard Copy & Publication certificates)
International Authors	USD 100
